WHAT'S NEW

Spring is here and sales are crazy at the moment. This is Brazzen's first spring and summer in the USA and we are surprised at the great response we are getting. People love our Australian designed equipment.

The new driveway gates are some of our most popular items. One of our dealers in Iowa bought a whole container of the driveway gates because they are selling so well.

Our products are unique, being fully galvanized and we have oval railing, not round. The oval rail has a a lot more strength than a round rail, when pushed down by the hoof of a horse or cattle or when a cowboy climbs over it. Because the oval rail is flat on the sides it also flexes more when pushed against.

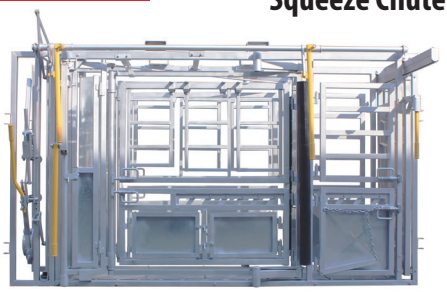
We have had more Brazzen Dealers sign up and we are spreading out to Wyoming and Alabama.

Don't forget we can only have one Brazzen Dealer in your area. If you have interest, contact us today because areas are selling out fast. You don't want to miss out on such a great business opportunity to work from your own property.

CATTLE EQUIPMENT

Chutes

Premium Cattle Squeeze Chute



Hobby Chute

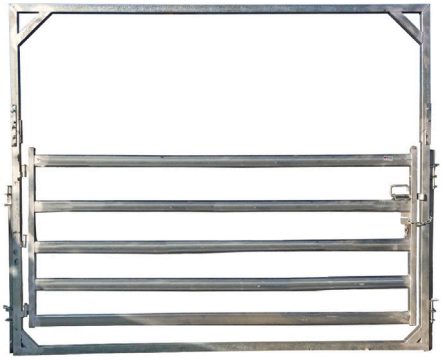
Premium 5 Rail Panels

All the panels join together using the easy to use slide in pins and you can even pin them 4 ways with any of our panels. You can also purchase a permanent post that can be concreted in the ground and the panels can be pinned to them. Our panels look great for a whole yard. **We have 5ft, 8ft and 12ft panels all 6ft high.**

Premium Cattle Gates

The gate is made of Galvanized steel with the rails being oval rails. These rails perform so you can put more pressure pushing down when a cowboy is climbing over the panel or a Horse is putting its hoof on the rail. Our gates all have slam latches and chain for extra security.

AVAILABLE SIZES: 7'4"L x 10' H
12'L x 10' H



CATTLE EQUIPMENT

LIVESTOCK EQUIPMENT

Blind Sweep Yard

This sweep is 20'8" diameter. The frame is made from 2 inch hot dipped galvanized square tube with 14 gauge galvanized sheeting on walls. Premium spring lock latch system with anti-back bars.

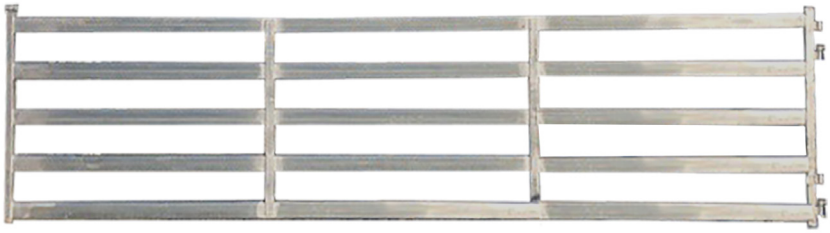
Feeders

Single Round Bail Hay Feeder

Single Bail Hay Feeder

Double Bail Hay Feeder

Driveway Gates



End posts are square 4 inches x 4 inches and 14 gauge. They are made from our premium oval rails 3½ inches x 2 inches and 12 gauge. Each rail almost has a 5inch face on them. Total 5 rails and with vertical strengthening straps to ensure this gate will never bend or break. **They come in lengths of 10ft, 12ft, 14ft, and 16ft. They are all 4 feet high and come with 4 long bolt through L hinges to carry the weight.**

We also have products available for horse, sheep, goats and more.
