Why Do Cattle Panel Prices Vary Across the USA?

What You Need to Know Before You Buy!

BRAZZEN
LIVESTOCK EQUIPMENT

BRAZZEN: A LEADING FORCE IN THE LIVESTOCK EQUIPMENT INDUSTRY

1. **Thicker Rails & Posts:** Brazzen panels use 0.059in thick oval rails and 0.067in thick posts, ensuring durability.
2. **Standard Weight:** Each standard Brazzen 5 rail 12' long 5' high panel (CPS12/5.2-5) weighs 97lbs of steel, providing solid, reliable support.
3. **Superior Dimensions:** Brazzen panels have 2.76x1.57in oval rails and 1.97x1.97in posts, compared to smaller, thinner options on the market.
4. **Full C Cleats:** Panels feature full C cleats on both sides with rubber inserts to prevent rattling, unlike half-pin cleats used by competitors.

BE BRAZEN
BUY BRAZZEN

5. **High-Quality Galvanization:** High-Quality Galvanization: Brazzen Posts are Hot Dipped Gal, with a coating, which is over 200gms/m2 and the rails are over 80gms/m2 for 2.36"×1.18" (60mm x 30mm) & 2.75"×1.57" (70mm x 40mm), and over 120gms/m2 for 4.53"×1.65" (115mm x 42mm), significantly more than standard 20mgs/m2 coatings.
6. **Salt-Tested Welds:** Select welds undergo salt testing to ensure long-lasting durability.
7. **Anti-Rust Measures:** Welders use spatter rubbers to prevent hidden rust-causing spatter on rails and posts.
8. **Brazzen Branding:** Every panel includes the Brazzen logo on the caps of all posts for authenticity.

CATTLE EQUIPMENT

PREMIUM MOBILE RAMP

- Robust construction
- 1x3.6m mobile cattle ramp
- Easy setup and quick conversion for towing
- Holds 12x portable cattle panels (not included)
- The premium floor is WPC (Wood Plastic Composite) Board

PANELS NOT INCLUDED WHEN ORDERING

PRODUCT NAME	SKU	LENGTH	DEPTH	HEIGHT	WEIGHT
Premium Mobile	CRPM	17'6"	7'4"	8'9"	1534lb

CATTLE EQUIPMENT

HEAVY DUTY CATTLE RAMP

- Heavy-duty steel construction ensures it can handle even the toughest outdoor conditions
- Overall size: 17 feet 7 inch L x 10 feet 9 inch H
- 11 feet ramp with a 6 feet 7 inch level extension for easy loading
- 3 feet 11 inches fixed loading height
- 2 feet 11 inches anti-slip walkway with a safety rail
- 2 access gates on the top to shut off the truck and/or ramp
- Detachable side walkway that can be placed on the left or right side
- Rubber contact points added to protect your ramp and truck

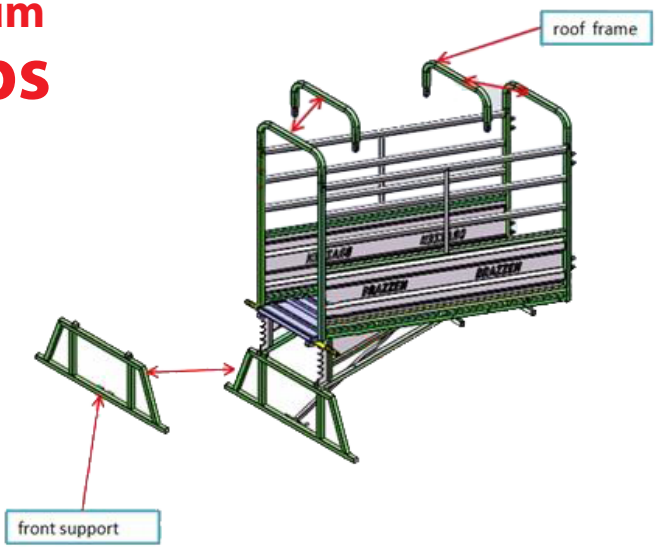

PRODUCT NAME	SKU	LENGTH	DEPTH	HEIGHT	WEIGHT
Heavy Duty Cattle Ramp	CRHWK	17'7"	6'	10'9"	2469lb

Differences Between Standard & Premium Cattle Ramps

Standard Cattle Ramp:

Side Fence (left and right), Roof Frame, Front Support, Frame Structure is made of 50*50 square tubes (green color)

Premium Cattle Ramp:

Side Fence (left and right), Roof Frame, Front support, Frame Structure is made of 60*60 square tubes (green color)

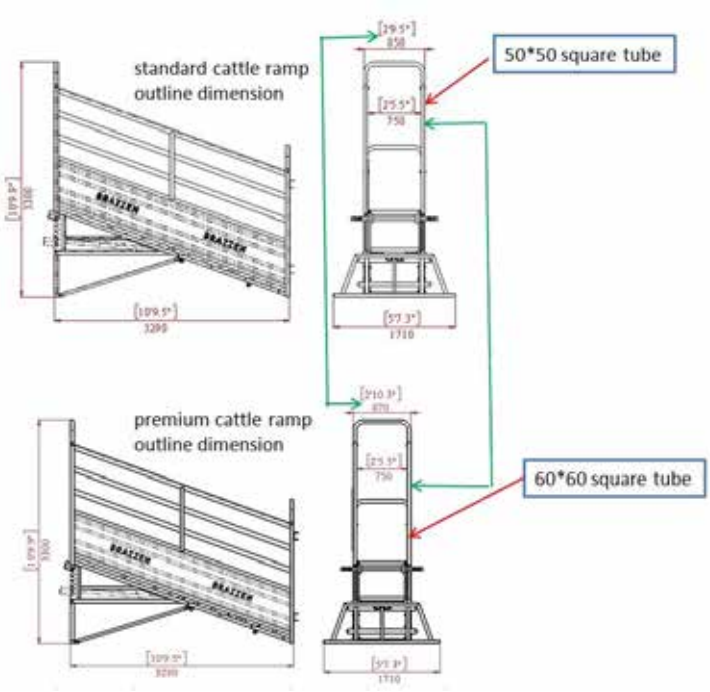

Standard and Premium ramps have the same outline dimensions, except as noted below, yet they have different weights.

The rest are the same for these two ramps.

1. Cattle Walkway Inner Dimensions: Both standard and premium cattle ramps have the same inner dimensions: 2'5"

2. Cattle Walkway Outer Dimensions: Standard cattle ramp's cattle walkway outer dimension is 2'9"

Premium cattle ramp's cattle walkway outer dimension is 2'10"

BRAZZEN LIVESTOCK EQUIPMENT

CATTLE EQUIPMENT

MATERNITY PEN

- Split gates fitted on both sides enable calves to nurse from either side.
- A dedicated access gate is retained, allowing operators to reach the rear of the cow should calf extraction assistance be required during calving.
- A 6'7" (2000 mm) floor panel and chest bar are available as optional extras.
- The floor panel can be installed quickly using just two stoppers and U-shaped clamps.

PRODUCT NAME	SKU	LENGTH	WIDTH	HEIGHT	WEIGHT
Maternity Pen	CPM	13'7"	12'2"	7'7"	1350lb
Maternity Pen Floor	CPMF	6'8"	2'9"	2.56"	
Maternity Pen Chest Bar	CPMCB	3'9"		1'5"	

CATTLE EQUIPMENT

CATTLE GRID/CATTLE GRID WINGS

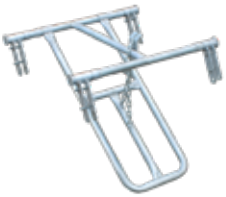

- Animal Friendly
- Tested to 20 Ton per axle
- Designed with 5 bearers and 12 rails
- Removable wings - SOLD SEPARATELY
- NOT FOR HEAVY TRUCKS

ADJUSTABLE ALLEY BOW

- Reduces turning around in alley for smaller animals
- Assists with maintaining a sturdy alley
- Modifications required to attach Adjustable Alley Bows to Slide Gates and Chutes

PRODUCT NAME	SKU	LENGTH	HEIGHT	WEIGHT
Adjustable Cattle Bow	CRBA	3'	7'1"	99lb
Adjustable Double Alley Gate	CRBDA	7'	8'6"	187lb

CATTLE EQUIPMENT

BLIND SWEEP YARD

- The sweep yard allows the handler to push cattle into the alley system with minimal risk to the handler
- Innovative braking system stops the cattle from pushing the gate back therefore protecting the operator
- The curved layout works with the natural behavior of how cattle run and tend to circle back to where they came from
- Standard Slide Gate Included

CLOCKWISE SWEEP AVAILABLE

- When using a clockwise sweep yard and a standard chute, the sweep yard requires the walkway to allow operation from the outside in line with chute operation

PRODUCT NAME	SKU	WIDTH	DEPTH	HEIGHT	WEIGHT
Blind - Counter Clockwise	CFYB	20'8"	10'8"	7'9"	1495lb

90 - Clockwise	CFYBO90	10'8"	10'8"	7'9"	1111lb

CATTLE EQUIPMENT

SWEEP YARD WITH CURVED EXIT

- Reduced livestock stress: The curved exit obscures cattle's line of sight to equipment in front (like chutes and head catcher), which reduces their stress and resistance/backing up, lowering the risk of injury to both animals and farmers.
- Higher efficiency: The curved exit works with the natural movement behavior of cattle, guiding them to move forward smoothly without frequent manual herding. This cuts handling time significantly.
- Improved safety: Limits animals' turning space, reducing close-contact risks for handlers.
- Versatility: Adapts to various livestock sizes and integrates seamlessly with Brazzen pen systems.

SHEEP EQUIPMENT

SHEEP HANDLER

Please note: This image shows optional panels and slide gates. The Sheep Handler includes two slide gates; all additional equipment pictured is sold separately.

SHEEP HANDLER WITH YARD

- Designed to Improve the efficiency of managing your sheep or goats
- Comes with 4 adjustment positions, to accommodate all stock sizes
- Comes with slide gate front and back
- Easy to tip sheep/goat up at a safe working height and do handling work
- Supplied in Flat Pack

PRODUCT NAME	SKU	LENGTH	WIDTH	HEIGHT	WEIGHT
Sheep Handler	SGH	5'9"	3'11"	3'11"	313lb

SHEEP EQUIPMENT

SHEEP V 3 WAY DRAFT

- Manufactured from Galvanized Steel
- Fully Sheeted
- The 'v' profile minimizes the chance of small stock turning around in the alley
- Alley has full sheeted sides (prevents legs and heads from getting out, and improves stock flow)
- Alley is made without overhead bracing this eliminates the danger of an operator getting his arm caught between the yard and animal

PRODUCT NAME	SKU	LENGTH	DEPTH	HEIGHT	WEIGHT
Sheep V	SRAFP	11'2"	1'9"	3'10"	485lb

- Galvanized predator-proof mesh with excellent airflow
- Insulated panels - fire, moisture & UV resistant for year-round comfort
- Double-locking front/rear gates; raised mesh floor keeps interiors dry
- Modular design - start 2-panel, expand to 3 or 4 as your flock grows
- One-person assembly; tools and parts included
- Smooth-rolling wheels for easy daily moves
- 3-panel setup suits up to 8 chickens (with daytime free-ranging)

How To Recognize
GENUINE BRAZZEN EQUIPMENT

BRAZZEN, OVER THE YEARS HAS BECOME A DOMINANT PLAYER IN THE LIVESTOCK EQUIPMENT INDUSTRY.

1. We pride ourselves in having excellent galvanizing and even our upright posts are hot dipped galvanized on all our panels which is important as this is the part that touches the ground.
2. All the gauges/tube wall thickness of our rails and posts are exactly the thickness as stated in our specifications.
3. Our workers pride themselves in their welding and you will see the difference with our welding compared with our competitors.
4. All our equipment has the anti-rattle rubbers where the pins join the Equipment.
5. Our 2.1m 6-rail Standard Panels are 36kg/79lbs in weight, the biggest deception with cheaper panels is the thin steel tube gauge which reflects in the weight of steel.
6. Some companies have cheap panels with only half a C-Lugs on one side to save on steel. When linked with other panels this is much weaker than the full C-Lugs. Beware of these inferior panels.

"If it is not Genuine Brazzen there is no Brazzen Warranty"

The factory manufacturing is controlled by Australians and so the quality control and the development are all looked after by Australians. Australia Livestock Equipment is known to be the most robust equipment throughout the world and a lot of Brazzen equipment in used in the Northern Territory and the outback where buffalos and wild cattle and horses are penned and captured in Brazzen Equipment.

We now have a lot of manufacturers starting to copy our equipment and trying to sell them as Brazzen Equipment.

For you to recognize Genuine Brazzen Equipment, you will see a logo on the cap on the top of the posts on our panels, you will see a Brazzen sticker on the panels. A lot of our equipment will have the logo stamped in them.

If you have a ranch and would like to make another income we are looking for dealers. Reach out if this is something you are interested in.

Do please keep buying Brazzen Equipment and make sure it is genuine.
